

Bullish Breakout Screener Report

Portfolio Analysis: 66 Stocks

Report Date: November 4, 2025

Analysis Period: 6 months historical data

Stocks Analyzed: 64 (1 delisted, 1 data error)

Executive Summary

The screener analyzed your 66-stock portfolio using a comprehensive multi-indicator approach to identify bullish breakout opportunities. Each stock was scored on a 100-point scale based on five key technical criteria:

- **SMA Breakouts** (25 points): Price position relative to 10, 50, and 200-day moving averages
- **MACD** (20 points): Momentum and trend strength via MACD crossovers and histogram
- **RSI** (20 points): Relative strength indicating momentum without overbought conditions
- **Volume** (20 points): Trading volume relative to 20-day average, with breakout confirmation
- **High Breakouts** (15 points): Price proximity to 52-week and 6-month highs

Key Findings

14 stocks qualified with scores ≥ 70 , indicating strong bullish breakout potential:

- **1 STRONG BUY** (score 90-100): 5% position size recommended
- **13 BUY** (score 70-89): 2-3% position size recommended
- **50 HOLD/PASS** (score < 70): No immediate action recommended

The qualified stocks span multiple sectors including Technology, Cybersecurity, E-commerce, Biotech, and Communications, providing diversified opportunities.

Near-Qualifiers (Score 65-69)

These stocks show promise but fall just short of the 70-point threshold. Monitor for potential entry:

Symbol	Score	Price	RSI	Vol Ratio	Key Strength
VRTX	68	\$426.00	61.99	1.48x	Strong volume, good RSI
SOFI	68	\$30.63	59.12	1.13x	Perfect SMA alignment
GOOGL	65	\$283.72	78.40	0.93x	Very high RSI momentum
NVDA	65	\$206.88	69.57	1.00x	Perfect SMA/MACD/RSI
AMD	65	\$259.65	69.77	0.51x	Strong indicators, low volume
QCOM	65	\$180.72	62.18	0.68x	Solid technical foundation
MU	65	\$234.70	76.17	0.96x	High RSI, +4.88% gain
REGN	65	\$642.25	66.71	0.78x	Biotech strength
SNOW	65	\$277.14	74.33	0.94x	High RSI momentum

Note: These stocks primarily lost points on volume (below 1.5x threshold) or high breakout criteria. They maintain excellent SMA, MACD, and RSI scores. Consider adding to watchlist for potential entry on volume confirmation.

Sector Analysis

Sector Strength Distribution

Sector	Qualified Stocks	Top Score	Average Score
Cybersecurity	3 (NET, CRWD, ZS)	80	80.0
E-commerce/Cloud	3 (AMZN, SHOP, ROKU)	80	80.0
Communications	2 (TWLO, ZM)	77	75.0
Biotech	2 (ILMN, BIIB)	80	76.0
Technology	2 (AAPL, TSLA)	73	73.0
Data/AI	1 (PLTR)	95	95.0
Transportation	1 (UBER)	83	83.0

Sector Insights

Cybersecurity - Strongest sector showing synchronized breakouts across NET, CRWD, and ZS. This sector-wide strength indicates a broader cybersecurity rally, potentially driven by increased enterprise security spending and digital transformation initiatives.

E-commerce/Cloud - AMZN, SHOP, and ROKU all scored 80, showing strong momentum in digital commerce and streaming. Cloud infrastructure and platform businesses demonstrating resilience.

Biotech - ILMN and BIIB both qualified with strong scores. Sector rotation into healthcare and biotech may be underway. Additional near-qualifiers (VRTX, REGN) support this thesis.

Data/AI - PLTR stands alone as the top opportunity, reflecting strong investor interest in AI and data analytics platforms.

Technical Indicator Summary

Scoring Distribution

Score Range	Count	Classification	Action
90-100	1	STRONG BUY	5% position
80-89	8	BUY	3% position
70-79	5	BUY	2% position
65-69	9	HOLD/WATCH	Monitor
50-64	10	HOLD/PASS	No action
<50	31	PASS	Avoid

Indicator Performance Analysis

SMA Breakouts - 14 stocks achieved perfect 25/25 scores, indicating strong trend alignment. This is the most common strength among qualified stocks.

MACD - 13 stocks achieved perfect 20/20 scores, showing bullish momentum crossovers. Strong correlation with overall scores.

RSI - 13 stocks achieved 20/20 scores, indicating optimal momentum (60-80 range). No overbought conditions among top picks.

Volume - More selective with only 8 stocks scoring ≥ 15 points. Volume confirmation remains a differentiating factor.

High Breakouts - Only 2 stocks (PLTR, CRWD, ZS) achieved maximum scores, indicating most breakouts are momentum-based rather than new high breakouts.

Risk Management Guidelines

Position Sizing by Score

Score Range	Position Size	Risk Level	Stop Loss Strategy
90-100	5%	Aggressive	5% below entry
80-89	3%	Moderate	5% below entry or nearest SMA
70-79	2%	Conservative	Nearest SMA below price

Stop Loss Recommendations

Two stop loss levels provided for each qualified stock:

1. **Aggressive Stop** - 5% below entry price for active traders
2. **Conservative Stop** - Nearest SMA support level for longer-term holders

Trailing Stop: After +15% gain, implement 10% trailing stop to protect profits.

Target Prices

Two target levels provided:

1. **Short-term Target** - 10% gain (1-3 month horizon)
2. **Medium-term Target** - 20% gain (3-6 month horizon)

Portfolio Allocation Example

If implementing all 14 qualified positions:

- 1 stock @ 5% = 5%
- 8 stocks @ 3% = 24%
- 5 stocks @ 2% = 10%
- **Total allocation: 39% of portfolio**

This provides diversification while maintaining significant dry powder for future opportunities or averaging into positions.

Market Context & Alerts

Notable Alerts

Golden Cross Candidates - Several stocks showing 50-day SMA approaching 200-day SMA. Monitor for bullish crossovers.

Volume Surges - UBER (2.02x), SHOP (1.73x), AMZN (1.71x), PLTR (1.68x) showing significant volume confirmation.

Sector Rotation - Cybersecurity and Biotech showing coordinated strength, suggesting sector-wide capital inflows.

Stocks to Avoid

Low Scores (<30) - The following stocks show weak technical setups and should be avoided for new positions:

- META (15), FMFC (15), TDOC (13), NFLX (12), MRNA (12), and various others scoring 9 or below
- These stocks typically lack SMA alignment, show bearish MACD, or have weak RSI momentum

Special Note: FMFC showed -21% daily decline with very weak technicals (score 15). Avoid or consider exit if held.

Implementation Strategy

Immediate Actions (This Week)

1. **Priority 1:** Initiate position in PLTR (5% allocation) - highest conviction
2. **Priority 2:** Build positions in top-scoring BUY stocks (80-83 range): UBER, AMZN, ILMN, NET, CRWD, ZS, SHOP, ROKU
3. **Priority 3:** Consider smaller positions in 70-79 range: TWLO, AAPL, TSLA, ZM, BIIB

Staged Entry Approach

For risk management, consider scaling into positions:

- **Week 1:** Enter 50% of intended position size
- **Week 2-3:** Add remaining 50% if technical setup remains intact
- **Alternative:** Enter full position but use wider stops initially

Monitoring & Rebalancing

Daily: Monitor for stop loss triggers and significant news events

Weekly: Review technical indicators for any deterioration in setup

Monthly: Re-run screener to identify new opportunities and reassess existing positions

Exit Criteria

Stop Loss Triggers:

- Price falls below designated stop loss level
- Technical breakdown (price drops below 200-day SMA with bearish MACD)
- Sector-wide weakness emerges

Profit Taking:

- Achieve short-term target: Consider taking 50% profit
 - Achieve medium-term target: Consider taking additional 30% profit
 - Implement trailing stops on remaining position
